Purple Sage Pottery by Iris Minc

Retail Price List for Standard Production Items – Fall 2026

Items are available in the following glazes: Sea Foam, a shiny watery light blue (rutile blue) with overtones of turquoise, lavender, and white. **Plum Purple**, a shiny highly variable glaze with rich tones of lilac, deep delphinium blue, burgundy and mauve. **Mamo**, a matte dappled cream; generally used with Sea Foam as the inside glaze.

Variations in the glaze colors should be expected. Sizes and shapes of wheel thrown pots may vary slightly. Trays that are available with "various embossed patterns" may be patterned with dragonflies, fish, turtles, leaves, or geometric designs. Each is individually decorated, and no two are exactly alike.

Slab Built Items
